

October 29, 2020

Dear Parents,

The Mahwah Board of Education is committed to providing nutritious meals to our students. We are excited to inform you of new and added benefits beginning **Monday, November 2, 2020!** To continue to meet the demands of the community, we will temporarily be adding breakfast items to the daily pre-packaged bag lunch option.

For the convenience of our students and their families, meals distributed the day before an All Virtual Wednesday will also include an extra day's meal, eliminating the need for a special trip to the school on Virtual Wednesday. We strive to ensure that our students have the food they need available to them.

Additionally, beginning with the week of November 9, meals distributed on Fridays and before short school breaks will include extra meals for the weekend and days off!

We encourage all students to take advantage of this limited time access to free meals. Every day, free lunches are distributed from several locations at each school for students to take as they leave for the day. Please refer to the Food Services page of District's website for information on pickup times and locations.

**For students that are all remote:**

- On days that your home school is placed on all-remote, please reference pickup locations on the Food Services Page of the District website. On days that your home school has students in session, you will follow the already established schedule of pick-up at the MHS auditorium lobby at 1:30pm.

Please note, for families who have children in different schools, they may continue to pick up at one school location for all their children's lunches.

We hope you will find these changes positive and helpful!

Regards,

Mahwah Township Public Schools and Pomptonian Food Service
