Dear Parents & Students in the Class of 2021,

New information has been released from the New Jersey Department of Education clarifying graduation requirements and PARCC assessments, which will directly affect the students in the Class of 2021, our current eighth-grade students.

Students in the Class of 2021 must pass the PARCC ELA Grade 10 exam, as well as the PARCC Algebra I exam, in order to demonstrate proficiency for high school graduation in the areas of English language arts and mathematics. Keep in mind there are students from Mahwah High School who take Algebra I in grade 8. If a student does not meet a passing score on the PARCC ELA Grade 10 exam and the PARCC Algebra I exam respectively, he/she will be allowed to participate in the NJDOE Portfolio Appeals to meet graduation requirements under certain conditions.

In order to qualify for the NJDOE Portfolio Appeal for language arts, the student must have taken the Grade 9 PARCC ELA, Grade 10 PARCC ELA, and Grade 11 PARCC ELA exams. In order to qualify for the Portfolio Appeal for mathematics, a student must have taken the PARCC Algebra I, PARCC Geometry, and PARCC Algebra II exams. If a student does not sit for all of the aforementioned exams, he or she will not be eligible for the NJDOE Portfolio Appeal.

I have attached the information provided from the NJDOE for your review. Please see pages 1 and 5. These changes are not those of the Mahwah Township Public Schools, but those of the New Jersey Department of Education. Be aware that if an eighth-grade student in the Class of 2021 does not participate in the Algebra I PARCC exam, he/she runs the risk of not fulfilling the state mandated assessment requirements necessary for high school graduation.

State regulations (*New Jersey Administrative Code 6A:8-5.1* effective on September 6, 2016) require all students to participate in PARCC assessments for both English language arts and mathematics in May of 2017.

## High School Graduation Assessment Requirements

Updated May 2018

On August 3, 2016, the State Board of Education approved updated state regulations for the high school graduation assessment requirements in both English language arts (ELA) and mathematics for the Classes of 2016 through 2021 and beyond. These new state regulations ([N.J.A.C. 6A:8-5.1](#)) became effective on September 6, 2016 and are detailed below.

**The Classes of 2018 and 2019** – Students graduating as members of the Classes of 2018 and 2019 can meet graduation assessment requirements through any of these **three pathways**:

- (1) Achieve passing scores on high school level PARCC assessments;
- (2) Achieve scores defined in the table below on alternative assessments such as the SAT, ACT, or Accuplacer; or
- (3) The submission by the district of a student portfolio through the New Jersey Department of Education’s (NJDOE) portfolio appeals process. (Special Education students, whose Individualized Education Plans (IEPs) specify an alternative way to demonstrate proficiencies, will continue to follow the graduation requirements set forth in their IEPs.)

**The Class of 2020** – Students in the Class of 2020 can demonstrate graduation assessment proficiency through:

- (1) Pass the PARCC Algebra I and English language arts/literacy (ELA) grade 10 assessments

**The following pathways are available to students after they have taken all applicable PARCC assessments for each of the courses in which they are enrolled:**

- (2) Achieve scores defined in the table below on alternative assessments such as the SAT, ACT, or Accuplacer, PARCC ELA 9, ELA 11, Geometry, Algebra II; or
- (3) The submission by the district of a student portfolio through the NJDOE’s portfolio appeals process.

**The Class of 2021 and Beyond** – Starting with the Class of 2021, students will only have **two pathways** to meet the high school graduation assessments requirements:

- (1) Pass the PARCC Algebra 1 and English language arts/literacy (ELA) grade 10 assessments; or
- (2) The submission by the district of a student portfolio through the NJDOE’s portfolio appeals process, **assuming the student has taken all PARCC assessments** associated with the high school level courses for which they were **eligible\* and received valid scores**.

**Each school year the NJDOE will determine the proficiency level** needed on the assessments to meet the requirements.

It is important to note that our students have always been able to meet graduation requirements through an alternative assessment or pathway to graduation throughout New Jersey’s forty-year history with a statewide assessment program, and will continue to be able to do so.

In this document, you will find charts containing the list of assessment requirements in both ELA and mathematics for the high school graduation Classes of 2018 through 2021.

*Note: \* “Eligible” is defined as a student who is enrolled in a high school course for which there is a PARCC test and received a valid score. This includes all of these courses: Algebra I, Geometry, Algebra II, ELA 9, ELA 10, and ELA 11.*
