

# BEHOLD

# YOUR LUNCH CARD!

Your student's ID/FOB card is also an active lunch card!

THE ID CARD IS AUTOMATICALLY ACTIVE

Your child can start buying lunch and snacks on the first day of school even if you did not put credit on the ID card!

There are simple and easy solutions to give you control over your child's purchases and to keep your account replenished automatically so you can avoid weekly reminder e-mails and telephone calls that you owe money.

# 1. Register with PayForIt to create an account

Call the PayForIt Parent Support Help Line @ 800-572-6642 and speak directly to a customer service professional to help you set up your user name and password. You can also access PayForIt.net from the Mahwah School Homepage under Popular links located at the upper right hand side of the page.

By doing this you now have the ability to view your child's account and see what they have been buying. You can also confirm any deposits you have put on the account. Best of all you can set up a replenishment option that will deposit money when the account gets too low.

# 2. Create a Replenishment Option!

By creating a replenishment option you eliminate the guesswork when it comes to how much is left on your child's account, **and** you will never be surprised by a Negative Balance Letter in the mail! See the attached flyer "Go Cashless" for more details!

Of course cash and checks to deposit in your child's account are always accepted. Make checks payable to the *Mahwah Board of Education Cafeteria Account*, and please write your child's name and ID# on the check.

# 3. Talk with the Food Service Manager to put restrictions on the account.

There are times when you may want to limit how much your child spends in a day, or what you feel they should or shouldn't eat. This can very easily be done by calling the Food Service Manager @ 201-762-2338. We will help you with all your questions.
